Hello. I created a VBA project in Word 2019. When I open the "References" dialog in VBA, "Microsoft Office 16.0 Object Library" points to "C:\\Program..." and in "Default Libraries" in the "References" dialog - "Word" and "SharePoint". I want to remove "Word" and "SharePoint" from the "Default Libraries" section. After installing Office 2016 Service Pack 2, I found that when I opened the Links menu in VBA in Word, there was no "Default Libraries". I am using Windows 10. What do I need to do to remove "Word" and "SharePoint" from the "Default Libraries" section of the "References" dialog in VBA in Word 2019
